⚠ WARNING: PHOTOSENSITIVITY/EPILEPSY/SEIZURES

A very small percentage of individuals may experience epileptic seizures or blackouts when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or when playing video games may trigger epileptic seizures or blackouts in these individuals. These conditions may trigger previously undetected epileptic symptoms or seizures in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition or has had seizures of any kind, consult your physician before playing. IMMEDIATELY DISCONTINUE use and consult your physician before resuming gameplay if you or your child experience any of the following health problems or symptoms:

- dizziness
- altered vision
- eye or muscle twitches
- loss of awareness
- disorientation
- seizures
- any involuntary movement or convulsion.

RESUME GAMEPLAY ONLY ON APPROVAL OF YOUR PHYSICIAN.

Use and handling of video games to reduce the likelihood of a seizure

- Use in a well-lit area and keep as far away as possible from the television screen.
- Avoid large screen televisions. Use the smallest television screen available.
- Avoid prolonged use of the PLAYSTATION®3 system. Take a 15-minute break during each hour of play.
- Avoid playing when you are tired or need sleep.

Stop using the system immediately if you experience any of the following symptoms: lightheadedness, nausea, or a sensation similar to motion sickness; discomfort or pain in the eyes, ears, hands, arms, or any other part of the body. If the condition persists, consult a doctor.

NOTICE:

Use caution when using the SIXAXIS™ wireless controller motion sensor function. When using the SIXAXIS™ wireless controller motion sensor function, be cautious of the following points. If the controller hits a person or object, this may cause accidental injury or damage. Before using, check that there is plenty of space around you. When using the controller, grip it firmly to make sure it cannot slip out of your hand. If using a controller that is connected to the PS3™ system with a USB cable, make sure there is enough space for the cable so that the cable will not hit a person or object. Also, take care to avoid pulling the cable out of the PS3™ system while using the controller.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PLAYSTATION®3 system to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

HANDLING YOUR PLAYSTATION®3 FORMAT DISC:

• Do not bend it, crush it or submerge it in liquids. • Do not leave it in direct sunlight or near a radiator or other source of heat. • Be sure to take an occasional rest break during extended play. • Keep this disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

Kung Fu Panda™ utilizes an automated checkpoint system to save your game progress. Your game will save each time you reach a checkpoint during a level.

SINGLE PLAYER DISPLAY

1. **Health & Chi Meter** – This displays the amount of Health and Chi for your character. The red meter represents your current amount of Health. Taking damage causes your Health to decrease.

   Chi Energy represents the inner energy that Po and other characters expend when using their Special Abilities. Chi Energy comes from two sources: defeating enemies and Chi Energy collectibles. Chi is represented in the world by glowing blue balls of energy. The blue meter represents your current amount of Chi. Using Special Moves will cause your Chi to decrease.

2. **Awesome Meter** – This displays your current state of "awesomeness." Filling up the Awesome Meter will make Po "Awesome." Fill up the Awesome Meter by landing multiple hits on enemies. When the meter is full, all enemies around Po will be stunned for a moment and Po's attacks will be more powerful, but only for a limited amount of time.

3. **Damage Multiplier** – This displays the amount of damage your character is causing. The higher the Damage Multiplier, the more damage your character will inflict.

4. **Interactive Items** – Button prompts will display above items in the world that you are able to interact with. Press the button that is displayed to interact with the item.
